2/7/76--know anything about "Nomenclature of an Assassination Cabal", unpub. MS by William Torbitt (pseudonym)? Someone loaned a copy to me. Crazy stuff, far-out conspiracy nonsense. Don't have time to read now--skimmed, though. Repeatedly in error on basic assass. facts. Says umbrella man is ~~Frank~~ Ferenc Nagy, former PM of Hungary and in FBI with Shaw! Real disinformation, certainly of little other interest. HR

note- Sprague calls this The Copeland document
